Gfg

Full-stack developer with 3+ years of experience in building and improving web applications. Skilled at creating reliable features, fixing issues quickly, and making systems easier to use. Experienced in working with cross-functional teams to deliver high-quality software and improve overall product performance.

EDUCATION

Siliguri Institute of Technology | 2018 - 2022 | WB

B.Tech : Computer Science & Engineering
CGPA : 8.2

Nalanda College | 2015 - 2017 | Bihar

Intermediate Board
Percentage: 70%

PROFESSIONAL EXPERIENCE

Amdocs – Full Stack Developer

2022- Present | Pune

- Engineered and deployed on 10+ microservices with **Node.js, NestJS, java ESB, Kafka, and PostgreSQL**.
- Architected high-availability APIs that improved system throughput by 35%, ensuring smooth integration across distributed systems.
- Delivered customer-facing features in React + TypeScript, reducing page load times by 30% and boosting user engagement by 20%.
- Delivered fixes for **450+ bugs and implemented 75+ new features**.
- Automated telecom workflows using **Generative AI + LLMs**, cutting manual intervention.
- Partnered with QA and product teams to improve release quality, reducing post-production defects by 25%.
- Contributed to system design (**HLD + LLD**) for complex telecom solutions, reducing feature onboarding time by 20%.
- Leveraged AWS, Docker, and Kubernetes to optimize CI/CD pipelines, accelerating deployment.

WalkOver - Web Developer Intern

Jan 2021 - Jul 2021

- Built responsive UI components with HTML, CSS, and JavaScript, ensuring 100% cross-browser compatibility.
- Integrated REST APIs to enable content rendering and make the application faster & smoother.
- Conducted API testing with Postman, detecting 10+ critical defects pre-release.

PROJECTS

- ClipGrab (Apr 2025 – Jun 2025)**: Developed a smart video downloader for YouTube/Instagram with real-time status, metadata preview, and error handling, using Gemini AI for platform detection. Built with ReactJS, TypeScript, REST APIs. [Click Here](#)
- Kiptox (Apr 2021– Jun 2021)**: Built a decentralized platform for Ethereum coin transfers with smart contracts (Solidity + Hardhat) ensuring secure blockchain transactions. Developed a user-friendly frontend using ReactJS. [Click Here](#)

SKILLS

- Programming Languages** : JavaScript, C, C++, Python, Java
- Front-End** : Reactjs, TypeScript, JavaScript, Jest, Cypress, HTML, Scss, Storybook.
- Backend & Tools** : Nodejs, NestJS, REST API, Couchbase, PostgreSQL, Postman, Nginx, IntelliJ IDEA, Maven, ESB, Jira, Git, Linux/Unix
- AI & GenAI** : Generative AI, Prompt Engineering , LLM , MCP Server, Claude, Copilot
- Cloud & DevOps** : AWS, Docker, Kubernetes, CI/CD Pipeline

AWARDS & ACHIEVEMENTS

Participated in Amdocs GenAI Tech Path program, Secured 2nd position in a Robo Soccer Competition. Served as a Core Member of DSC (Developer Student Club), Solved 600+ various coding platform
